

A TEAMS

TELECOM & SECURITY SYSTEMS

**PROVIDING ALL
YOUR TECH NEEDS**

WHO WE ARE

Over years, A TEAMS has been able to provide many premium clients all kinds of low-current, Telecom and Security Systems.

We continued a sustainable growth along the years, though, without any advertising - we let our good deeds do it for us.

We are concerned with the connectivity and security of our clients' businesses, as much as they are. We cater their networks as if they were our own.

MISSION

To make IT easy through technology so that our clients can concentrate on their core businesses by staying connected resiliently, to their clients, securely. We are not seeking to be the biggest, but to be the best. We strive for excellence and aim to exceed expectations. We work hard to achieve our goals and we encourage our staff to be ambitious.

VISION

To be recognised as a key provider in the provision of turnkey IT & Security solutions. To become a recognised specialist along with a sustainable growth. Retaining our competitive edge through innovation is central to the way we operate and we are always looking to improve our business processes and services.

VALUES

As our business continues to grow, we work hard to keep these values at the core of our operation. We are a company that values individual excellence and strong teamwork, where people care about each other and share their knowledge freely. We constantly reward and celebrate individual and team success.

OUR SOLUTIONS

INTERNET & WIFI

We provide advanced WIFI systems to boost your internet connection to its best performance.

SURVEILLANCE SYSTEMS CCTV

We provide full CCTV systems using latest AI technologies which allows you to have a live view of your business and home premises.

INTRUSION ALARM

We provide advanced and reliable intrusion alarm systems whose aim is to monitor and detect unauthorized access to your premises.

COMPUTERS & SERVERS

We install and configure all kinds of computers and servers.

IP TELEPHONY

We offer a complete unified communications solution with advanced features.

FIRE ALARM

We install early detection fire alarm systems that work together to detect fires as soon as they erupt.

OUR SOLUTIONS
